Postcode type and position

6 digits to the right of the province name.

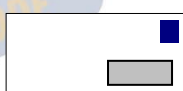

Coding method

1 2 3 4 5 6

Position of the address on the envelope

Bottom right-hand corner

Alignment of address lines

Left-aligned

Address format

A new postcode system has been introduced in 2009 but the use of postcodes for sorting purposes will first occur in 2015.

Three levels of administrative divisions are required in the Vietnamese address:

- Level 1, provinces: entails provinces and 5 centrally governed cities (Hanoi, Haiphong, Da Nang, Ho Chi Minh and Can Tho).
- Level 2, districts: entails rural and urban districts, provincial cities and towns.
- Level 3, sub-districts: entails communes, wards, sub-towns and islands.

Some street addresses mentions 3 levels of thoroughfares; alley, lane and street.
